 - Health Center Policies
 - After Hours & Emergency Guidelines
- Seamlessly integrated with Medicat's Practice Management & EMR
- Utilizes LDAP and CAS technologies to authenticate with University login.

*"We were searching for ways to save nursing hours in our allergy clinic. After changing clinic hours and eliminating walk-ins, we still had to deal with all of the phone calls for appointments. **Online scheduling saved the day!** Over 85% of our allergy appointments are now made online, eliminating hundreds of phone calls. Students love the flexibility of making appointments whenever they want."*
