BEST PRODUCT

"I love the product, I love the company and the customer service is beyond compare."

~ Ann Potter, FNP, MSN, University of North Carolina School of the Arts

"Medicat's Immunization Compliance Manager makes a complicated process infinitely easier ~ Ellen Reynolds, Associate Director, University of Rhode Island

"The Medicat technology is first rate – comparable if not superior to what is available in both the college health and private sectors for ambulatory health care. The technology is also very stable, well designed, and reasonably priced."

~ Paul Ferguson, Director, Georgia Southern University

"Medicat's Clinical Protocol Manager resolved an issue that has been troubling us for at least a decade!"

~ Melodee Lusky, MD, Director, Rutgers New Brunswick

"Medicat provides my staff with the tools to provide quality healthcare. We are able to assess our health trends, quickly assess which students are not immunized, analyze clinic use and provide the college administration with valuable information regarding the health of our campus. Medicat allows providers to be more efficient and take control of their own schedules."

~ Jackie F. Webb, ARNP, MSN, Director, Colby-Sawyer College

"Medicat's practice management and EHR system has been transforming for our Health Service. The system has been very intuitive for everyone, especially those who were most intimidated by the thought of constantly interacting with technology."

~ Vanessa Britto, MD, Director, Wellesley College

"Medicat's Online Student Health and Self Check-In has received great feedback from students!"

~ Janice Frias, Health Educator, California State University - East Bay

"Considering all the EHR systems I have used in different clinical settings, Medicat is definitely the best suited for college health. Their customer support is top notch and they meet many unique college health requirements that other EMR vendors aren't as familiar with. All of our users (*including those with limited computer skills*) say they would never go back to paper charting. I would go with it again in a heartbeat."

~ Brian M. DeLoach, MD, Medical Director, Georgia Southern University Student Health Services

SUPERB IMPLEMENTATION

"I have been impressed with how Medicat listens to our unique, and sometimes not so unique, needs and worked with us to understand the product (and ourselves) better to serve our students"
~ Frederico Procopio, MD, University of Rhode Island

"Medicat EHR helped us pass AAAHC at a 5-star level and saves our clinicians time because we're able to chart so much faster."
~ Sandra Samuels, MD, Medical Director, Rutgers Newark

"I can sum up Medicat with three points: *integrity, awesome support, knowledgeable staff.* Medicat's willingness to go above and beyond is what places them in the #1 spot in my opinion."
~ Debra Saure, RN, APRN, Director, Creighton University

"Medicat's staff has amazing depth and breadth of product knowledge, and the service and support is far superior to our previous clinic management software."
~ David Brown, Ph.D, Clinical Psychologist, University of Montana

THE TOTAL PATIENT HEALTH MANAGEMENT SOLUTION

UNSURPASSED SUPPORT

"Medicat's service far surpasses anything we received from our previous vendor!"

~ Kathi Cole, NP/Clinic Coordinator, California State University - San Bernardino

"Medicat service and support is superb! The accessibility and knowledge of the staff at all levels are among the key reasons why UC Irvine chose Medicat instead of other programs out there. Not only did we receive a great suite of software programs, we received a full network of people dedicated to our success"

~ J. Patrick Haines, Administrative Director, University of California - Irvine

"It is a very difficult task to select the best application for a clinic, but our past experience has proven over and over again that customer support is equally as important as the application itself. My opinion and experience has been that Medicat is providing the quality product and support we need and expect in a very timely manner."

~ Kathryn White, Association Director - Health Services, East Carolina University

"I've never experienced this level of outstanding support previously with ANY company."

~ Donna Morrison, Director, North Dakota State University

We are quite pleased with our investment in Medicat because we feel Medicat has invested in us as well. Not all software companies are responsive to client needs. We appreciate our partnership.

~ Edie Swartz, Special Projects Manager, James Madison University
