

BENEFITS:

- ✓ Completely Automates manual tracking and follow-up for Pap, Immunizations, Cancelled Appointments, etc.
- ✓ Eliminates Log Books, Tickler Files, Card Files & Manual Letters
- ✓ Improves Productivity
- ✓ Reduces errors
- ✓ Improves student response – no more missed reminders!
- ✓ Saves staff time!

*“Medicat’s **Clinical Protocol Manager** provides all we asked for and more! In our facility, we use Clinical Manager to track pap smears, blood-borne pathogen exposures and student/employee required immunizations and health screenings.*

*The system has grown with us and as we have needed enhanced reporting and new protocols to track, **Medicat** has delivered exactly what we needed.”*

University of Kentucky
