

BENEFITS:

- ✓ Provides electronic access to patient medical history/chart
- ✓ Enables health center Quality Improvement
- ✓ Improves Clinical Workflow
- ✓ Eliminates 'Lost' Records/Charts
- ✓ Ensures Accurate Reporting & Documentation
- ✓ Ensures Security & HIPAA Compliance
- ✓ Adheres to Wellness Guidelines & Alerts
- ✓ Enables trend analysis for your campus

*"Thanks to Medicat's **paperless EMR** and Immunization Compliance Manager we did not need to hold a Mumps clinic because we had proof -- easily retrievable proof -- that all our students provided evidence of two MMR vaccinations prior to enrollment. This data saved our university, the state and the CDC money and time -- and gave us peace of mind. The **Medicat Electronic Medical Record** allows us to change the way we practice in our clinic and helps us more efficiently support public health surveillance of disease management."*

*University of Northern Iowa
11,000 students*

State-of-the-art EMR for College Health

EMR Features:

- Provider Task List & Reminder System
- Provider Schedule
