- ✓ Enable up-to-date student information from bursar & registrar
- ✓ Enhance patient care
- ✓ Provide inventory management
- ✓ Improve staff productivity
- ✓ Enable detailed financial reporting
- ✓ Seamlessly integrated with Medicat EMR

*"We've been clients of **Medicat** for more than 7 years and have found their **Practice Management** software product to be a genuine reflection of the superb excellence that's characteristic of the people that comprise the company. Their customer service is top rate; from the personal attention down to the on-line web-based training sessions, they're fantastic! A client may desire to start with a basic Medicat set-up and build on that as their needs expand - such as adding Medicat EMR or Immunization Compliance Manager."*
