- Custom Intake Forms Completed by Appointment Type
- Digital Signature for Privacy Forms
- Students Complete Medical Health History Form
- Intake Data flows to Medicat EMR
- No Paper Forms!
- Students enter and verify insurance info

*“By using the Self Check-in module we have completely eliminated ALL paper during the check in process. **Medicat’s Self Check-in** has worked well for us and helped our clinic become 98% paper free! The patient updates his/her demographics and fills out templates we created to correspond with our appointment reasons. That information is automatically submitted to the EMR where it can be reviewed by the provider before or during the patient’s visit.”*
